Zach Kirk Joins AGS Team

American Government Services (AGS) has announced that Zach Kirk has been hired as a Software Engineer. Zach brings a fresh perspective to the development and implementation of AGS Prime, a low-code/no code product from AGS Data Systems.

“We are very pleased to have Zach joining our organization. Representing the top of his class, Zach is an excellent example of the very high quality Software Engineers entering the labor market from our 2-year Community College system in Wisconsin,” says Derrick Edwards, President of AGS Data Systems.

Zach, originally from Clear Lake, Wisconsin is a graduate of Wisconsin Indianhead Technical College (WITC) located in New Richmond. Zach was hired as a Software Engineer for AGS in February. AGS is excited to have another hand on deck, and believe that Zach will be a great addition to the team.

Please join me in welcoming Zach to the AGS family.

Derrick Edwards

[American Government Services \(AGS\)](#)

American Government Services, LLC, (AGS) is a recognized leader of integrated, cloud-based client management software for the employment and training, education, and social services sectors. We serve state and local workforce agencies, community colleges, social services agencies, regional collaboratives, and service providers, managing millions of customer records throughout North America.

[Wisconsin Indianhead Technical College \(WITC\)](#)

WITC is a top-ranked college serving the northwest region of Wisconsin with multiple convenient locations and offerings, including career-focused degree and certificate programs, customized training for businesses and a wide array of personal and career enrichment courses.
