AGS Expands Technology Department, Hires Dalton Brown

American Government Services (AGS) has announced that Dalton Brown has been hired as a Software Engineer. Dalton brings a fresh perspective to the Technology Department, and will be instrumental in helping develop AGS Prime, the newest product from AGS Data Systems.

“AGS is very pleased, and fortunate, to have Dalton joining our Product Development Staff. With his double major in Biology and Computer Science, Dalton brings a very strong, multi-discipline analytic view to our organization” says Derrick Edwards, President of AGS Data Systems.

Dalton, originally from Inver Grove Heights, attended the University of Wisconsin - Madison and graduated with a biology degree in 2016. An Intro to Coding class late in his college career sparked an interest in computer science, and after working briefly in conservation out of college, he returned to college at the University of Wisconsin - River Falls (UWRF). At UWRF, Dalton was connected to an AGS internship by a staff member, and began working at AGS in the fall of 2018. Graduating in December with a Computer Science degree, Dalton came to AGS full time as a Software Engineer in February 2019.

Please join me in welcoming Dalton to the AGS family.

Derrick Edwards

[American Government Services \(AGS\)](#)

American Government Services, LLC, (AGS) is a recognized leader of integrated, cloud-based client management software for the employment and training, education, and social services sectors. We serve state and local workforce agencies, community colleges, social services agencies, regional collaboratives, and service providers, managing millions of customer records throughout North America.

[University of Wisconsin - Madison](#)

The University of Wisconsin–Madison is a public research university in Madison, Wisconsin. Founded when Wisconsin achieved statehood in 1848, UW–Madison is the official state university of Wisconsin, and the flagship campus of the University of Wisconsin System. It was the first public university established in Wisconsin and remains the oldest and largest public university in the state. It became a land-grant institution in 1866

[University of Wisconsin - River Falls](#)

Founded in 1874, the University of Wisconsin-River Falls is one of 13 comprehensive universities in the prestigious University of Wisconsin System. Located in the beautiful St. Croix Valley just 30 minutes from the Twin Cities, UWRF is a leader in exemplary teaching, undergraduate research, and sustainability. Our mission is to help prepare students to be productive, creative, ethical, engaged citizens and leaders with an informed global perspective.
