Excited to Announce Casey Schlatter joins AGS Marketing Team

American Government Services (AGS) has announced that Casey Schlatter has been hired as a Marketing Intern on March 18, 2020. Casey brings her fresh, new perspective to social media and web design, webinars, and analytics, among other responsibilities that focus on customer support and market expansion.

“We are thrilled to have Casey on the team. She is a dynamic young woman with a very bright future, I predict. Her drive, curiosity, and technical capabilities make her a great fit for AGS as we are bringing to market our new product, AGS Prime, a no-code/low-code platform, reaching into brand new markets and channels. We will do everything we can to help prepare her for her next adventure”, says Susan Harden, Vice President of Sales and Marketing at AGS.

Casey is a senior at River Falls High School. Through her school counselor and connections made at the Wisconsin Indianhead Technical College (WITC) event, Casey and AGS were introduced. Casey has made the most out of her business opportunities at school, starting a non-profit coffee shop which involves multiple departments within the school, donates profits to local charities, provides hands-on training to students, as well as creating a very fun and social scene within the school. She also participated in a state-wide high school Future Business Leaders of America (FBLA) website design competition, for which she won the regional competition. In the future, Casey will be attending the University of Wisconsin-Madison business school, but is yet to declare a major. In her free time, Casey enjoys running, painting, and spending time at her family's cabin up north.

Please join me in welcoming Casey to the AGS family.
